NEW Canadian book from Kluwer Law International

Tort Law in Canada *by Jean-Louis Baudouin, Allen M. Linden*

Derived from the renowned multi-volume *International Encyclopaedia of Laws*, this book provides ready access to how the legal dimension of prevention against harm and loss allocation is treated in Canada.

After an introduction probing the distinction between **tort and crime** and the relationship between **tort and contract**, the monograph describes how the concepts of fault and unlawfulness, and of duty of care and negligence, are dealt with in both the legislature and the courts.

The book then proceeds to cover specific cases of liability, such as **professional liability, liability of public bodies, abuse of rights, injury to reputation and privacy, vicarious liability, liability of parents and teachers, liability for handicapped persons, product liability, environmental liability, and liability connected with road and traffic accidents.**

Publication date: August 2010 • ISBN 13: 9789041133731
